

MESSAGE FROM EDITOR-IN-CHIEF

Assalamualaikum Warahmatullahi Wabarokatuh

Journal of Engineering and Technology (JET) is an open access peer reviewed journal published twice a year by Malaysian Technical Universities (MTU). This latest edition (Vol 9 No.2) presents the latest findings in the fields of Mechanical and Manufacturing Engineering, Electrical and Electronic Engineering and Chemical and Bioprocess Engineering. The journal provides an ideal platform for the exchange of knowledge, but not limited to the abovementioned fields of expertise.

This edition consists of eleven single blind peer-reviewed articles written by researchers with expertise and knowledge in the various fields of research, contributed from both local and international authors including China, Bangladesh, Iran and India. We welcome more contributions from researchers and industrial players to share their latest findings through this platform.

Finally, on the behalf of the Editorial Board, I would like to express my sincere appreciation to all parties who have contributed in the publication of JET Vol. 9 No. 2. Special thanks to all editors, technical editors, reviewers and authors of the articles. It is their generous contributions of time and effort that made this issue possible.

Thank you.

Thank you.

Professor Dr. Md. Razali bin Ayob

Editor-in-Chief

Journal of Engineering and Technology

JOURNAL OF ENGINEERING AND TECHNOLOGY

Contents

Volume 9 Number 2 July - December 2018

No.	Title	Page
1.	Comparative Adsorption of Crude Oil Using Coconut Shell and Coconut Shell Activated Carbon <i>B. A. Olufemi, A. Otuoze</i>	1
2.	Voltage Instability Analysis Based on Adaptive Neuro-Fuzzy Inference System and Probabilistic Neural Network <i>A.F. Mohamad Nor, M. Sulaiman, A.F. Abdul Kadir, R. Omar</i>	27
3.	Real Time Optimal Implementation of Stabilizing Controller for Inverted Pendulum <i>A.G. Ibrahim, N.M. Tahir, M. Idi</i>	41
4.	Mechanism of Interaction Between Pioglitazone Hydrochloride and Bovine Transferrin by Spectroscopic and Molecular Docking Methods <i>C.D. Wang, B. Liu, G. Bian, L.H. Ma, C. Zhang, X. Cheng D</i>	61
5.	A Cluster Head Assisted Routing (CHAR) Scheme for Improved Energy Load Balancing in Wireless Sensor Networks <i>S.O. Adetona, L. Ahemba, A.L. Imoize</i>	77
6.	Comparative Study for Activation of Hydrogen Peroxide by Chemical Reagents (Fe_2^+ , Al_3^+) to Reduce Chemical Oxygen Demand in Petrochemical Wastewater <i>M. S. Bala, A. A. Mohd Azodein, M. I. Asdash, B.Y. Alshwal</i>	97
7.	FPGA Based Massage Display System Improvement Using Scanning Technique to Minimize Power Consumption <i>K. Saharia, M. Motiur</i>	111
8.	Analysis of Dynamic Tensile Deformation Characteristics of Deep Coal Rock <i>L.G. Miao, B.M. Shi, Y.Y. Niu</i>	119
9.	Application of VIM, HPM and CM to the System of Strongly Nonlinear Fin Problem <i>M.R. Shirkhani, A. Hoshyar, D.D. Ganji</i>	133
10.	Mathematical Modelling of Ethanol Dehydration from Azeotropic Concentration using Pressure Swing Adsorption (PSA) Process <i>T. E. Ewrierhoma, A. Jaiyeola, A. B. Ehinmowo, P. I. Babalola</i>	149
11.	Response Surface Methodology and Artificial Neural Network to Evaluate Tool Wear in MQL – Turning <i>N. C. Ghuge, A. M. Mahalle</i>	173
