

MESSAGE FROM EDITOR-IN-CHIEF

Assalamualaikum Warahmatullahi Wabarokatuh

Journal of Engineering and Technology (JET) is an open access peer reviewed journal published twice a year by Malaysian Technical Universities (MTU). This latest edition (Vol. 10, No. 1) presents the latest findings in the fields of Mechanical and Manufacturing Engineering, Electrical and Electronic Engineering and Chemical and Bioprocess Engineering. The journal provides an ideal platform for the exchange of knowledge, but not limited to the above-mentioned fields of expertise.

This edition consists of eleven single blind peer-reviewed articles written by researchers with expertise and knowledge in the various fields of research, contributed from both local and international authors including China, Bangladesh, Iran and India. We welcome more contributions from researchers and industrial players to share their latest findings through this platform.

Finally, on the behalf of the Editorial Board, I would like to express my sincere appreciation to all parties who have contributed in the publication of JET Vol. 10, No. 1. Special thanks to all editors, technical editors, reviewers and authors of the articles. It is their generous contributions of time and effort that made this issue possible.

Thank you.

Prof. Ts. Dr. Noreffendy Tamaldin
