

MESSAGE FROM EDITOR-IN-CHIEF

Assalamualaikum Warahmatullahi Wabarokatuh

Journal of Engineering and Technology (JET) is an open-access peer-reviewed journal published twice a year by Universiti Teknikal Malaysia Melaka (UTeM). This latest edition (Vol. 11, No. 2) presents new findings in the fields of Mechanical and Manufacturing Engineering, Electrical and Electronic Engineering, Civil and Building Engineering, Chemical and Bioprocess Engineering as well as Computer Science and Engineering. The journal provides an ideal platform for the exchange of knowledge, but not limited to the abovementioned fields of expertise.

This edition consists of five single-blind peer-reviewed articles written by researchers with expertise and knowledge in the various fields of research, contributed from both local and international authors.

On behalf of the Editorial Board, I would also like to thank all editors, technical editors, reviewers and authors for the published articles in this edition. It is their generous contributions of time and effort that made this issue possible.

Thank you.

Professor Dr. Badrul Hisham Ahmad

Editor-in-Chief

Journal of Engineering and Technology

JOURNAL OF ENGINEERING AND TECHNOLOGY

Contents

Volume 11 Number 2 July - December 2020

<i>No.</i>	<i>Title</i>	<i>Page</i>
1.	IoT Based Approach on Aquarium Monitoring System with Fish Feeder Automation <i>N. H. M. Tahir, S. N. Mohamad, W. F. W. Tarmizi, M. L. M. Zain and N. N. Jailani</i>	1
2.	Dried Leaves as Potential Adsorbent for Removal of Methylene Blue <i>N. A Hamid and U. S Zahari</i>	11
3.	Numerical Assessment of a Static Mixer Design for Mixing Free Flowing Granular Materials Using the Discrete Element Method <i>Seifeddine Garneoui, Kepler István, Péter korzenszky</i>	23
4.	A Study on Gasoline Engine Fuel Octane Numbers Using Accelerometer Analyzing with Multi Statistical Techniques <i>Mohd Irman Ramli, Nor Azazi Ngatiman, Ahmad Fuad Ab Ghani, Nur Habibah Hamzah</i>	37
5.	Enhancement of Voltage Stability with Unified Power Flow Controller Considering Loadability Analysis <i>S.S. Yusuf, P.U. Okorie, A.S. Abubakar, I.O. Onimisi and F. Alhassan</i>	55
