

## MESSAGE FROM EDITOR-IN-CHIEF

Assalamualaikum Warahmatullahi Wabarokatuh

Journal of Engineering and Technology (JET) is an open access peer reviewed journal published twice a year by Malaysian Technical Universities (MTU). This latest edition (Vol. 8, No.1) is a continuing effort to share the latest findings in the fields of Mechanical and Manufacturing Engineering, Electrical and Electronic Engineering, Civil and Building Engineering and Computer Science and Engineering. The journal provides an ideal platform for the exchange of knowledge, but not limited to the above mentioned fields of expertise.

This edition consists of nine single blind peer-reviewed articles written by researchers with expertise and knowledge in the various fields of research, contributed from both local and international authors including Sweden, Turkey and Nigeria. Hence, with these positive progresses, we welcome continuous support from the scientific community and industrial practitioners.

Parallel with the aim to establish a good journal standing, we have continuously worked a long way to produce high quality journal articles that have been proofread by the professionals together with our continuous effort in obtaining internationally recognized indexing bodies. It is in-progress and it is our aspiration to bring this journal at par with those of the leading ones in the near future.

Finally, on the behalf of the Editorial Board, I would like to express my sincere appreciation to all parties who have contributed in the publication of JET Vol. 8 No. 1. Special thanks to all editors, technical editors, reviewers and authors of the articles. It is their generous contributions of time and effort that made this issue possible.

Thank you.

*Professor Dr. Md. Razali bin Ayob*

Editor-in-Chief

Journal of Engineering and Technology

# JOURNAL OF ENGINEERING AND TECHNOLOGY

## Contents

Volume 8 Number 1 January - June 2017

<i>No.</i>	<i>Title</i>	<i>Page</i>
1.	<b>Fuzzy Logic Mechanism for an Improved Assessment into Lifting Related Injury Risks among Nigeria Women</b> <i>H.O. Adeyemi, O.O. Akinyemi, Z.O.O. Jagun, S.I. Kuye, M.A. Sulaiman, N.S. Lawal, C.A. Adeyemi</i> .....	1
2.	<b>Mechanical and Combustion Characteristics of Oil Palm Biomass Fuel Briquette</b> <i>J.K. Odusote, H.O. Muraina</i> .....	17
3.	<b>Development of a Low-Cost Digital Logic Training Module for Students Laboratory Experiments</b> <i>L.A. Ajao, J. Agajo, A.O. Ajao, J.T. Oke</i> .....	39
4.	<b>A Case Study: SMED Contributor using Shapley Value</b> <i>S.S Sulaiman, M.A. Mansor</i> .....	59
5.	<b>Critical Gap Analysis of Merging Sections at Kuala Lumpur Middle Ring Road</b> <i>M.E Sanik, N. F. L. Rahimi, N.B. Hamid, A. H. M. Nor, J. Prasetijo, N.F. Razali</i> ...	69
6.	<b>The Critical Success Factors for Public-Private Partnership Highway Construction Project in Malaysia</b> <i>F.E. Mohamed Ghazali, S. Abd Rashid, A.F. Mohd Sadullah</i> .....	83
7.	<b>A Real Time System for Traffic Monitoring by using Kalman Filter</b> <i>A. Abdullah, E. Abu Bakar</i> .....	103
8.	<b>An integrated Statistical Variance and VIKOR methods for Prioritising Power Generation problems in Nigeria</b> <i>I. Emovon, D. O. Samuel</i> .....	111
9.	<b>Evaluation of Radio Link Design with Different Modulation and Antenna Schemes</b> <i>D. Varlı, R. Benzer</i> .....	127
